

MOBILITY MADE EASY

MicroAge has you covered as your single-source supplier for all things mobility including IoT, MDM, procurement, 24x7 support life cycle management, fulfillment, asset tracking, consulting and much more. Let us simplify the process for you with these added benefits.

IoT Solutions

We make IoT Real: Consulting, Design, Implementation and Enterprise IoT solutions that provide a competitive advantage

MDM Management

Dedicated experts who know Mobile Device Management (MDM) inside and out, ensuring that you get the right products for your needs

Wireless Backup

Enterprise Recovery Services including Workforce Continuity, Cyberattack Protection, and natural disaster protection with proven cloud partners

Consulting Services

Navigate through today's complex mobile landscape with answers to some of the toughest questions surrounding enterprise mobility decisions

Staging and Kitting

Leave it to us. We will install applications and software on all devices before putting them in your team's hands

Equipment Management

Avoid interruptions as we monitor your device inventory so that a replacement can be shipped in 24 hours if you ever need it

Project Management

A detailed deployment plan will be made to support your day-to-day operations and minimize disruption to your employees and operations

Training

New devices and OS updates can be confusing. Training available on any device, any carrier, in accordance to your company's IT use policies

Procurement

Ability to equip your mobile team with the service, devices and applications you need on any North American carrier

Dedicated Resources

Leave it to us. We will install applications and software on all devices before putting them in your team's hands

Asset Tracking

No more sleuthing. We will keep track of your equipment, including users and software to save you time

Mobility Telematics

Keep your fleet at your fingertips with monitoring and reporting analysis to measure and increase return on investment

Billing & Invoicing

Our billing system gives you a single point of contact for all things mobility, including data and cost code allocation

24/7 Helpdesk

We'll handle everything from syncing issues to warranty replacement and Aircard Installation in an efficient manner
