

# Security Maturity Assessment

Quickly assess how secure your organization is.

Building out the right security strategy for your organization can detect and prevent cyberattacks, mitigate risk and ensure regulatory compliance—all while streamlining security management. As your security partner, MicroAge performs an infrastructure security check, supports identifying gaps and vulnerabilities, and recommends the right security solutions for your business needs.

First, let's see where you fit on the Security Maturity scale.

0 REACTIONARY	1 INFORMAL	2 REPEATABLE	3 DEFINED	4 MANAGED	5 OPTIMIZED
 <ul style="list-style-type: none"><li>• Firewall and Antivirus</li><li>• No Full-Time Management</li><li>• No Strategy or Standards</li></ul>	<ul style="list-style-type: none"><li>• Firewall and Antivirus</li><li>• Purchasing Spot Solutions</li><li>• Finance Oversight</li><li>• Compliance Focus</li><li>• Adhock Policies</li></ul>	<ul style="list-style-type: none"><li>• Firewall and Antivirus</li><li>• IPS/IDS</li><li>• Tech Heavy/Patching</li><li>• SDLC</li><li>• Minimal Controls/Policies</li><li>• Compliance Focus</li><li>• Tribal Knowledge</li><li>• Some Practices</li></ul>	<ul style="list-style-type: none"><li>• Tech Overhaul &amp; Standards</li><li>• Documentation</li><li>• Controls</li><li>• Policies</li><li>• &gt;1 Person in Team</li><li>• Training &amp; Education</li><li>• Outside of IT</li></ul>	<ul style="list-style-type: none"><li>• Level 3+</li><li>• Governance Maturity</li><li>• Security Process</li><li>• Automation</li><li>• System Integration</li><li>• Expansion of Team</li></ul>	 <ul style="list-style-type: none"><li>• Level 4+</li><li>• Security Integrated</li><li>• Across Business</li><li>• Top Level Program with Best Practices</li><li>• Security = Core Corp Value</li></ul>
