

# Protect Healthcare Workers and Your Patient Experience

Prevent virus spread and maintain a safe environment for patients, employees, and visitors with a 5-point healthcare facility entrance protocol. Free up staff members for patient care with touchless wellness screenings at entry with one intuitive screen. Gain more visibility with more in-depth reporting to provide a safe healthcare setting with consistency and accuracy.

## With MicroAge Services, you can:

- ✓ Protect and redistribute your healthcare workforce—reallocating up to 50% of screening staff to patient care settings
- ✓ Build screenings around your unique healthcare and workplace environment
- ✓ Increase patient satisfaction levels with a quick, non-invasive process
- ✓ Keep up with constantly changing regulatory requirements while making adjustments in real-time to visiting hours and capacity

## Our frontline screening technologies include:

- ✓ Complete 5-point touch-free temperature scans, wellness symptom checks, visitor and patient badge printer, critical Personal Protective Equipment (PPE) management, and employee badge reader
- ✓ Custom questions to build the screening around your patient environment and vaccine strategy
- ✓ Epic-compatible technologies that integrate seamlessly

## What's the MicroAge Difference?

Let our HIPAA-compliant services experts guide your wellness screening technologies with more than four decades of industry experience and deep knowledge of the current healthcare system environment. **We know that every moment counts.** That's why every MicroAge team member is dedicated to our value of getting it right the first time, so you can keep your focus on protecting your patients and frontline healthcare workers.
