

Empower a Safer Shopping Experience

Protect your customers and employees and provide a safer shopping experience with an FDA-compliant wellness screening platform. Mitigate risk and prevent virus spread—using a highly secure solution with data encryption—while staying in alignment with CDC guidelines for retailers. With our comprehensive, workplace wellness screening platform you can safeguard your organization's future and your staff with the reading technologies used by more grocery retailers in the United States.

With MicroAge Services you can:

- Ensure masking compliance among staff members
- Build screenings around your workplace and retail environment
- Navigate any potential infection with contact tracing
- Promote efficient information sharing across your organization
- Future proof your investment with integration across workforce systems

Our frontline screening technologies include:

- Complete touch-free wellness kiosks with mask and temperature scans, symptom checks, and questions on potential exposures
- Total integration with company time-keeping system

Unleash a robust, streamlined screening strategy
