

Working in MicroAge Services: Changing how the world works.

MicroAge combines a potent mix of technology services backed by vendor-certified engineers with an unsurpassed level of expertise. This tight knit team provides our clients impressive end to end knowledge from on-prem to the Cloud to deliver the competitive edge technology necessary to lead in a disruptive, digital environment. To meet client goals and demand, we continue to expand our advanced services offerings in Cloud, Infrastructure, Networking, and Managed Services. Our award-winning people-first culture empowers a flexible working environment built on recognition, trust, and transparency.

UNLEASH YOUR POTENTIAL

At MicroAge, you will learn and grow by taking courses and getting certifications, and by working alongside our team of experts to gain critical hands on experience to solidify your knowledge.

- Partner with like-minded individuals to develop and fine tune process and standards to ensure efficient workflow and quality results for our clients
- Position yourself for advancement and leadership opportunities at a quickly scaling services organization.
- Pay it forward while gaining valuable career experience mentoring team members and supporting their professional growth and MicroAge's

MAKE AN IMPACT

- Get rewarded with our recognition program—including MicroAge accolades and annual awards ceremony, company-paid trips for high performers, regular raffles, drawings, and interactive, live events with food delivered on demand to your door
- Thrive in a culture of collaboration where team members celebrate their wins, support each other's success, and empower organization stability in a progressive industry. Build first-name relationships with an experienced, supportive executive team

FIND A BALANCE

- Discover work-life balance with remote work options and a flexible schedule
- Get involved in our fitness program, including eligibility for gym reimbursement
- Plan ahead with access to healthcare plans with Medical, Dental and Vision options, 401K plan, maternity leave, and our financial advisors

The learning never stops in our key areas of expertise
