HP Compaq Elite 8300 All-in-One Desktop PC series

Meet business needs now, and into the future with a smart all-in-one PC packed for ultra-performance and rich in multimedia features. Implement intuitive, optional touch in this space-saving design, ideal for business applications and high-traffic areas. Boost productivity with the latest PC technologies and simplify your IT environment with remote manageability and enterprise-class security.

HP recommends Windows® 7.

An all-in-one changes everything

Create an ideal environment that fits your needs with a versatile all-in-one PC. Adjust the brilliant, 58.4 cm (23-inch) diagonal Full-HD display to portrait or landscape orientation, or mount to a wall – perfect for kiosks, lobbies and tight spaces.

Bring the power of touch to your business. HP's multi-touch displays deliver quick and easy access to business-critical information and customer-facing applications.

Save on travel expenses with optional HP Virtual Room and bridge the distance face-to-face with the optional, built-in webcam and dual microphone array.

Tune in to outstanding audio quality with integrated SRS Premium Sound PRO™ and internal business-class speakers.

Business performance

Boost productivity with the power of a 2nd and 3rd generation Intel® Core™ vPro™ family processors and bring presentations to life with integrated Intel® HD Graphics. Support more demanding graphics with optional MXM discrete graphics cards.

Keep going at a moment's notice with Intel® Smart Response Technology, a disk cache solution that provides solid state drive like performance, faster boot up times and quick application responsiveness.

Transfer data faster with built-in SuperSpeed USB 3.0 ports, and provide convenient access to the devices your team uses the most, including DisplayPort for dual-displays and an optional serial port.

For the toughest business workloads, configure your system to support up to 16GB with DDR3 SDRAM memory technology, featuring support for dual-channel memory solutions through two SODIMM slots.

Increase your storage space with multiple SATA Hard Drive configurations up to 1 TB, or a 256GB Self-Encrypting Drive/Solid State Drive.

Control the fleet

Customize your level of data protection and control PC deployment functions with HP Protect Tools a comprehensive portfolio of security features built into the hardware and software.

Receive diagnostic updates and implement automatic recovery with business-critical HP BIOS Protection and remotely manage clients using Intel® Core™ vPro™ technologies and solutions from LANDesk Software.

Get full access to your entire system through one rear-facing, lockable panel that allows you to easily upgrade and replace components.

Maximize your investment

Help lower your company's utility costs with a 90% energy-efficient internal power supply, and extend your PC's lifespan with HP Power Assistant. Control inherent energy profiles, customize low-power state schedules and enable S3 sleep settings.

Plan transitions efficiently with a 15-month lifecycle stability commitment from HP, and unify your operations worldwide with globally consistent SKUs in over 145 countries.

Your peace of mind is our business. Count on award-winning support and service, with a standard, 3-year limited warranty, or choose extended packages through HP Care Pack services.
