

# Unleash new levels of productivity and efficiency with Microsoft Azure

Hyperscale workloads and fuel collaboration across the cloud with Microsoft® Azure, a global leader focused on secure, scalable cloud-enabled enterprise applications. Whatever your organization's industry or size—you need to become a tech company to move at the speed of the market and disruption. That is only possible on the cloud—propelling faster, smarter, simpler builds, deployments, and applications.

Innovate and scale with the latest resources on your Azure public cloud environment—harnessing trusted resources and technologies—all from one modern intuitive platform. Work smarter in a reliable Microsoft® public cloud environment without unpredictable fluctuations in pricing or coverage.

## MicroAge is ready to take your public environment further.

- MicroAge is a Gold Partner, an award-winning Cloud Solutions Provider (CSP), and an Elite 150 ranked MSP by The Channel Co (CRN).
- Our team has a deep knowledge of both the Azure tenant and of legacy infrastructure to assess, design, migrate and manage the public cloud solution.
- MicroAge cloud experts are security and compliance-focused—following repeatable standards and project management for powerful outcomes.

At MicroAge, we understand that cloud innovation never stops changing. We build powerful relationships and partners to support your organization by:

- Discovering the benefits of a cloud-first strategy with **expert-guided assessments**
- Tailoring your environment to support your goals and and workforce with **design sessions**
- Defining, planning, and executing your **migrations**—flawlessly
- Leveraging deep discounts and saving you time **with license, resource, and cost management** from a Microsoft Cloud Solution Provider (CSP)
- Keeping your team focused on transformation while MicroAge **manages your Azure deployment and environment**
- Unlocking **powerful insights and support** on storage and compute and site recovery
- Powering visibility into Microsoft Cloud and its ecosystem with our **Immersion Experience**—guiding you through the Azure environment and benefits.

Digital transformation is only possible with agility, security, and the subject matter experts. Connect with our cloud experts today—call 800-544-8877 or visit [MicroAge.com](https://MicroAge.com).
