

The Digital Transformation Experts

MicroAge Network Managed Services

Accelerate more **reliable** and **scalable** operations

Avoid network outages and performance issues with MicroAge Network Managed Services. Keep devices online, secure, and up to date with regular upgrades and eliminate costly Multiprotocol Label Switching (MPLS) networks. With MicroAge experts managing your network, you'll have access to a robust knowledge base and best practices 24/7/365. Rely on precision at every turn with dedicated MicroAge network-trained experts vetting every upgrade and troubleshooting any performance issues.

With MicroAge Network Managed Services, you can:

- Eliminate expensive downtime and empower agility
- Fast-track network implementations and resolutions
- Conserve critical in-house resources with our trained networking experts
- Arm your organization with a security-centered network strategy
- Execute updates with confidence with extensive lab testing on solutions and updates
- Unleash insights with systems engineers available to support network engineers
- Ensure your networks are in strict alignment with compliance requirements

MicroAge Network Managed Services covers:

MAINTENANCE

- Keeps devices up-to-date with regular upgrades
- Prevents outages and performance problems
- Vets all network upgrades pre-execution
- Provides post-maintenance support

MANAGEMENT

- Supports complex and straightforward configurations
- Assists with new network and device setup
- Implements new solutions—faster
- Future proofs and assesses network for improvement

SUPPORT

- Provides live support 24/7/365
- Accelerates network performance resolutions
- Troubleshoots network performance problems
- Manages requests for network changes

MicroAge Network Managed Services Supports:

FIREWALLS

Cisco
Fortinet
Meraki
SonicWALL
Sophos

ROUTERS

Cisco

SD-WAN

VeloCloud
Fortigate
SonicWaLL

SWITCHES

Ruckus
Cisco
Meraki

WIRELESS

Ruckus
Meraki

What's the MicroAge Difference?

MicroAge combines a powerful mix of technology services backed by vendor-certified engineers and an acclaimed panel of experts to deliver the competitive edge technology leaders need to lead in a disruptive, digital environment. MicroAge positions your organization for the future with end-to-end services.

Eliminate downtime for good.
