

Modernize your Microsoft Licensing Strategy with MicroAge

With the recent changes in Microsoft licensing, navigating licensing options is becoming increasingly difficult. Whether opting for perpetual one-time purchase licenses or a Microsoft 365 subscription, MicroAge's Microsoft-certified Cloud Engineers have you covered when selecting the best option for your organization.

New Microsoft Benefits:

- **One and three-year subscription** options to purchase Windows Server and SQL Server
- **Greater savings** than the previous one-time purchase perpetual license or three-year Open Value Agreement with Select Agreement alternatives
- **Directly access your license keys** to download and choose downgrade options for your license within the M365 Admin Portal

Microsoft Licensing with MicroAge

From Visual Studio licenses to an Azure subscription—MicroAge's dedicated Cloud team is available to discuss your needs. Our team can assist with migrating your organization's resources to an Azure subscription and streamline the invoicing process for the resources provisioned.

MicroAge's Microsoft specializations and services include:

- Microsoft 365
- Perpetual and subscription licensing
- Visual Studio
- Azure subscriptions and migrations
- Azure cost optimization
- Azure architecture design

With MicroAge's Microsoft services, you can:

- Use our storefront to self-provision Microsoft 365 licenses
- Receive 24x7, two-hour response support during business hours for documentation and guidance on Microsoft 365 services
- Access our Microsoft-certified Engineers specializing in Microsoft 365 and Azure
