

Azure Optimization Engagement

Maximize Your Azure Potential

Navigating today's cloud infrastructure can be complex, requiring a partner focused on modernization and innovation. MicroAge's Azure Optimization Engagement not only helps you maximize your Azure investments, it also identifies opportunities for efficiency, security, and alignment with your strategic business goals.

At MicroAge, our commitment is to advance your business goals for the short- and long-term. Integrating modernization and innovation into your plans means our Microsoft-certified professionals provide unparalleled value and expertise. Our award-winning approach combines technical proficiency with a deep understanding of your business to help drive your cloud transformation and digital evolution further faster.

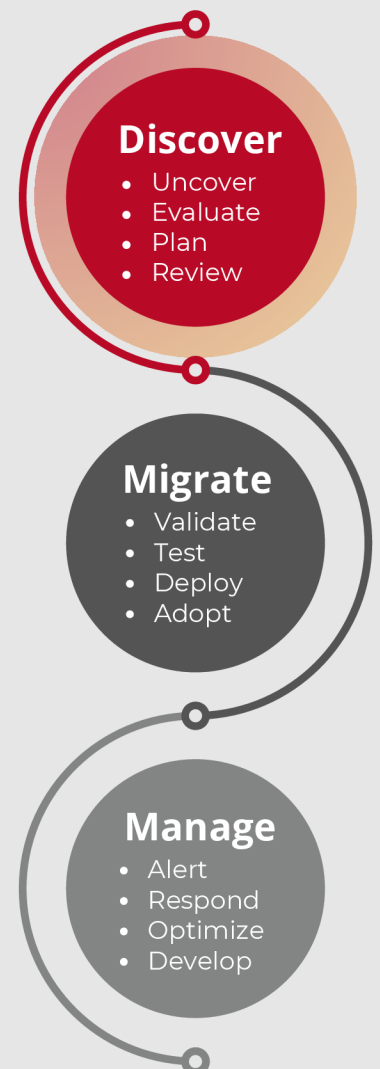

Expert-Led Discovery Process

Our certified cloud experts conduct a comprehensive assessment of your IT environment, leveraging our extensive experience and Microsoft Solutions Partner designations. This process delivers:

- Evaluation of existing on-premise and Azure resources
- Modernization strategies for Azure-bound workloads
- Executive summary with detailed assessments
- Azure design diagram
- Azure cost optimization recommendations

This thorough approach lays the groundwork for a tailored, best-practice strategy encompassing migration, modernization, innovation, and optimization

MicroAge's Azure Methodology

Azure Optimization Engagement

DELIVERABLES

Strategic Planning	Migration Assessment	Architecture Design	Implementation Plan	Environment Analysis	Financial Projection
Cloud Adoption Strategy document	Strategic Migration Assessment document	Azure Architecture Diagram	Azure Migration / Deployment Plan	Datacenter Discovery & Readiness	Azure Migration Assessment & Cost Review
Detailed Roadmap for Cloud Adoption	Workload prioritization & dependency map	Scalable & Secure Infrastructure Blueprint	Timeline & Resource Allocation	Comprehensive Inventory of IT Assets	TCO Comparison (On-prem vs. Cloud)
Alignment with Business Goals & IT Objectives	Risk Assessment & Mitigation Strategies	Best Practices for Optimization	Phased Approach for Minimal Disruption	Gap Analysis Between Current & Future State	ROI Projections & Optimization Guidance
